65th Western Poultry Disease Conference &
The American College of Poultry Veterinarians-
Sponsored Workshop
24 – 27 April 2016
Vancouver Marriott Downtown Hotel
1128 West Hastings St., Vancouver, BC V6E 4R5, Canada

Attendance & Participation - All veterinarians, researchers, previous participants and other professionals, especially students, interested in poultry diseases, are invited to participate.

Registration - Register online (http://conferences.ucdavis.edu/wpdc), by fax, or by mail (Conference & Event Services - WPDC, 116 A Street, Davis, CA 95616, USA). Payment in US funds only. WPDC registration includes access to the WPDC proceedings online, the Welcome Reception, and the WPDC meeting. The ACPV registration includes only the ACPV workshop on Sunday and its proceedings. A confirmation letter will be e-mailed to you when we receive your registration form and payment. On-site registration is Sunday, April 24, 2016, 7:00AM-10:00AM for ACPV & WPDC, and Monday, April 25, 2016, opening at 7:00AM for WPDC. Please contact Conference & Event Services for additional information.

Accommodations - Meeting and guest rooms will be located at the Vancouver Marriott Downtown Hotel. A block of rooms has been reserved until March 25, 2016, at special conference rates of CAD$175 + tax for “City View” and CAD$195 + tax for “Harbour View”. To obtain these special rates, please mention Western Poultry Disease Conference 2016 at time of booking. Reservations can be made online through the Marriott website (https://resweb.passkey.com/go/WPDC) or by calling the hotel directly (604-684-1128, or toll-free 1-800-207-4150). After March 25, 2016, reservations will be accepted on a space available basis only, and at the current published rack rate.

Special Acknowledgments - The WPDC is most grateful and thankful for the generous meeting support to the WPDC program which helps enrich this annual conference. The supporters as of January 20, 2016 are:

American College of Poultry Veterinarians (ACPV) Workshop – On Sunday, April 24, 2016, the ACPV will sponsor a continuing education workshop entitled Disaster/Emergency Preparedness (with an emphasis on avian influenza). This workshop is open to everyone, but a separate registration is required to attend. For additional information, please contact Dr. Rocio Crespo (crespo@vetmed.wsu.edu). Program and registration material are enclosed.
The American College of Poultry Veterinarians-Sponsored Workshop  
**Topic: Disaster/Emergency Preparedness (with an emphasis on Avian Influenza)**

This workshop will provide scientific knowledge and practical information, in order to maintain the safety and viability of our food supply, as well as, to minimize losses, in the event of a disaster or emergency. Such events can range from those affecting only one farm, like a fire, to those affecting several poultry companies, like an outbreak of avian influenza, or even events that affect an entire community, such as an earthquake or flood.

**SESSION I**

**TOPIC: Gut health**

| 1:30 | Frank Jin | Effect of B. subtilis and B. licheniformis on performance of late first cycle laying hens | Agnes Agunos | Changes in prevalence of resistance to antimicrobials in enteric organisms following the voluntary change in antimicrobial use practices in the poultry industry |
| 1:45 | Kristen Brennan | Using nutrigenomics to understand avian GIT health and its role in production and performance | Tom Inglis | An evaluation of antimicrobial use of resistance in poultry and relevant food safety pathogens isolated from clinical cases and poultry products in Western Canada |
| 2:00 | Herb Kling | Effect of B. subtilis and B. licheniformis on C. perfringens in broilers | Ruwani Karunarathna | Mapping of multidrug resistance in bacterial isolates of non-viable chicken embryos |
| 2:15 | John Schleifer | Evaluation of dietary Enterobac in broilers challenged with Eimeria maxima and Clostridium perfringens | Agnes Agunos | Farm level surveillance of antimicrobial use and resistance in Canadian turkey flocks |
| 2:30 | Poster Viewing and Break: 2:30PM – 3:00PM |

**SESSION II**

**TOPIC: Antimicrobial resistance**

| 3:00 | L. Ayalew | Isolation and characterization of avian reoviruses by phylogenetic analysis and restriction enzyme fragment length polymorphism (RFLP) | K. Hayes | Salmonella vaccine persistence study |
| 3:15 | A. Gupta | Fowl Adenovirus (FAdV) shedding and the role of neutralizing antibodies against FAdV following infection with FAdV8ab | M. Cadena | Using RNA-Seq Next Generation Sequencing to understand the variability in gene expression in Salmonella Heidelberg after exposure to disinfectants |
| 3:30 | B. Schlegel | White Chick Syndrome in Alberta | T. Chylkova | Susceptibility of salmonella biofilm and planktonic bacteria to common antimicrobial agents used in poultry processing |
| 3:45 | M. Brash | Etiologic investigations into White Chick Syndrome in Ontario | W. Witbeck | Diagnostic developments in salmonella testing |

**SESSION I**

**TOPIC: Viral diseases**
